## L'HOTEL DE SERS

For this luxury establishment in the "golden triangle" of Paris (Champs Elysées, Concorde, Montaigne) the Hôtel le Queen Elisabeth was transformed to a place of contemporary lifestyle offering the luxury of irreproachable service. Keeping the original atmosphere of this mansion belonging to the Marquis de Sers, the first owner of the premises in the 19th century, the architect adopted an almost neutral style, focusing on the spatial quality and the self-evidence of the layout. The hotel offers 52 rooms, four suites, two panoramic suites and one apartment, and each room focuses on the essentials: clear spaces, light that modulates on three levels, understated furniture with plain fabrics.
